Kner/Badra section: Capstone Engineering Design Project I - Spring 2026

Project Milestone #15: Client Presentation and Submission of Final Design Deliverables, due 5/4

This document is simply a reminder and does not replace the information provided in the Lectures, which are mandatory to all team members.

Required Actions

Schedule a final meeting with your client to present your final design and results. Provide your client with the design files and include any feedback from your client in your final report.

Team deliverables

1. One PDF file containing the Final Report (according to the Guidelines presented in the 4/1 lecture); see some examples under eLC/Content/Templates and Examples.
2. One ZIP file containing all your final design files.
